Summary of reasons for decision:

The computer moving image file is deemed objectionable because it promotes and supports the exploitation of children for sexual purposes.

The file contains a short clip that shows a woman and man involving a young girl, who appears to be an older child, in sexual activity. The purpose of the clip is to sexually titillate or arouse

adults with a sexual interest in pre-pubescent girls. The availability of this material is likely to encourage this sexual interest and strengthen the idea that children may be used for adult sexual gratification. The effect is to encourage the sexual exploitation of children.

The classification of this publication interferes with the right to freedom of expression set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's intention and is a reasonable limitation on the freedom of expression. The classification reflects the concern of a free and democratic society to protect its young and vulnerable members from sexual exploitation.
